

MARYLAND

SCD

SUPERVISORS

ACKNOWLEDGMENTS

These records of service as Maryland Soil Conservation District Supervisors are from information collected while Executive Secretary of the State Soil Conservation Committee through 1983 and information supplied by the Committee's office since that time. This publication was a project of the Maryland Soil Conservation Leaders Association. The assistance of William Hahn, District Manager, Baltimore County SCD, in typing and arranging these records is greatly appreciated. Additions and corrections made after 2-94 were made with the assistance of Lynne Hoot, Executive Director, MASCD.

Arnold C. Hawkins

MARYLAND SCD SUPERVISORS

The Maryland Soil Conservation Districts Law passed in 1937 created the State Soil Conservation Committee (SSCC) with authority to organize soil conservation districts. The law provides for a five member board of supervisors to govern each district. The initial selection of supervisors was as follows: The SSCC appointed two supervisors for three year terms. These two supervisors arranged for an election of three additional supervisors to serve three year terms. The two appointed three elected procedure was followed until 1970 when the law was changed to provide for appointment of all five supervisors, four by the SSCC to serve four year terms and one by the county government to serve at their pleasure. The effective date (month and day) of the SSCC appointments was made the same as the old election date. Also the SSCC appointments were staggered to provide for one to be appointed each year.

In 1982 the law was changed to provide for five year terms for the SSCC appointed supervisors. Other provisions that have affected length of service are that any supervisor that fails to attend at least 50% of all regular meetings of the board shall be considered to have resigned and a supervisor may not hold two offices of profit at the same time.

Twenty six districts have been organized in Maryland. Two of these are no longer in existence. The Monocacy District was a watershed district which was discontinued when the Frederick District was formed. The Carroll District was reorganized to include part of the Monocacy District. The Gunpowder Falls-Deer Creek District was also a watershed district which was discontinued when the Baltimore County and Harford Districts were formed. One other district, the Catoctin District, has boundaries that are the same as the Catoctin Creek watershed in Frederick County. All of the districts have boundaries the same as the counties except that the Catoctin and Frederick Districts combined have boundaries the same as Frederick County. The word County is a part of the official names of the Baltimore County District and Washington County District.

The following is a list of the supervisors that have served in Maryland with their dates of service and the district they served in. An asterisk in the end column indicates the supervisor is serving as of this printing. Supervisors are listed in a continuous list by date of appointment and also grouped by the district they served in. The dates of service are listed in approximate order. The earlier lists of those that have served indicated the year only. These are arranged in approximate order based on the organization and election dates of the districts. A list of organization and election dates is attached. A more specific but still approximate date is given for those that began service in 1963 and later years. Most of these are dates of election or appointment. Actual service would not have begun until the oath of office was taken.

ORGANIZATION, ELECTION AND APPOINTMENT DATES

| DISTRICT ELECTION* | ORGANIZED | | FIRST |
